Cisco Learning Network Space

Online eReader v4.7.0
Cisco eReader for iPad v4.1.0
Cisco eReader for Android v4.1.0
Cisco eReader for Windows v3.0.41
System Requirements

For minimum system requirements, please see:

Cisco Learning Network Space - System Requirements
(https://learningnetwork.cisco.com/docs/DOC-30353)
Support

• For questions and support issues, please visit our Help Desk at: https://learningspace.cisco.com/help

• For quicker support, please include a detailed description and screenshots.
Cisco Learning Network Space

Online Cisco eReader
Open the dBook

- The My Content panel will display the individual components (modules/books) of all redeemed student kits. In the example below, both the Student Guide and the Lab Guide are available to open.

To open the dBook, click the content title in the My Content panel.
Online eReader – Open

- The online Cisco eReader will pop open in a new window. Make sure to allow Pop Ups from your browser.
Online eReader – Facts

• Each CCOID user may launch up to 5 simultaneous Online eReader sessions across multiple machines/browsers.

• Attempts to open more Online eReader sessions will result in a notice to close some of the active sessions.

• Any idle session will time out in 8 hours. You can keep a session active by navigating around, annotating, searching, or saving settings. Scrolling up or down will not reset the timeout timer.
Online eReader – Navigation

• **Navigation Scroll Bar and Go to page**: The navigation scroll bar and Go to page textbox appear on the bottom of the application. Use these to quickly navigate to specific pages.

• **Back to page**: To go back to the last page viewed, click **Back to page <last_page_number>** near the top right of the Annotations Pane.

• **Content Scroll Bar**: The scroll bar appears to the right of the content area when the text on a page is longer than the viewing space of the reader.
Online eReader – Navigation

• **Next page / Previous Page:** To go to the next page, click the right arrowhead on the right side of the page. To go to the previous page, click the left arrowhead on the right side of the page.

• **Magnify Image:** To enlarge an image or videos within the Online eReader, click the magnifying glass icon on the bottom right corner. Click the close button on the upper right hand corner to close.
Online eReader – Left Toolbar

• The next few slides will discuss the Left Toolbar.
Online eReader – Left Toolbar

• **Exit eReader:** Always use this button to properly close the user session with the CLNSpace server. Do not use the browser’s Close button (the X at the top right of the browser) to close the reader as this will leave the session active until the session has timed out (currently set to 5 hours).

• **Full Screen:** This toggle feature is used to engage the full screen viewing mode.

• **Bookmark:** This toggle button can be clicked to add/remove bookmarks based on the currently viewed page. A list of bookmarks will appear in the Bookmarks tab in the Annotations Pane.
Online eReader – Left Toolbar

• **Print**: This allows you to print **up to 10** individual logical pages. A logical page is whatever is shown in the Content Pane. Depending on the length of the logical page being printed, that logical page may print out to a few physical pages on paper.

  Note: Clicking the Print icon counts as a page printed, whether you actually print the page or not, so use care when clicking the Print icon.

• **Feedback**: This allows you to provide feedback.

• **FAQ**: This displays the Frequently Asked Questions.
Online eReader – Annotations

Available Functions and Options

- **Notes**: Use this tab to compose notes on a given page or topic. All user notes are exportable and printable (by clicking Export or Print Notes, respectively, at the top of the Notes tab once a note has been added).

- **Bookmarks**: Click to view, edit and manage previously entered bookmarks.

- **Highlights**: Select this tab to view, add/edit comments to and manage previously highlighted material. User comments can be copied from the edit box.
Online eReader – Annotations

• **Contents**: Click this tab to view the Table of Contents. The Table of Contents can also be used to navigate through the dbook.

• **Search**: Click the magnifying glass to search for text material, highlighted passages, bookmarks and your notes. You can click the Course radio button to search for text in the course material. Or you can click the Notes/Highlights/Bookmarks to search the annotations that you've made in the form of Page Notes, Highlight Comments, and Bookmark Titles.

• **Settings**: Click the gear icon to customize the highlight color, text size and font style. Remember to click **Save Settings** to keep your changes.
Online eReader – Annotations

Highlights

- **Highlight**: To highlight text in the Content Pane, select the text to be highlighted, right-click to bring up the right-click menu, then select **Highlight**.

- **Removing a Highlight**: To remove a highlight, right-click on the highlighted text in the Content Pane, then select **Remove**.

- **Reload**: To synchronize annotations (bookmarks, highlights, notes) with the server at any time, select **Reload**.
Online eReader – Annotations

Highlights

• **Adding a Highlight Comment:** To add a comment to highlighted text, click the Highlights tab in the Annotations Pane, find the highlighted text that you want to add comments to, then click the text box beneath it.
Online eReader – Annotations

• **Synchronize Annotations:** To synchronize your annotations with the server, right-click anywhere in the Content Pane to bring up the right-click menu, then select **Reload**.
Additional Information

For additional information on the Online eReader, the User Guide can be downloaded from the Cisco Learning Network Space landing page under Download Free Online Courses.
Cisco Learning Network Space

Cisco eReader for iPad
Cisco eReader for iPad – Download

System Requirements

• Please see Cisco Learning Network Space - System Requirements - 30353.

Download Cisco eReader for iPad

• The app is available for download from the Apple/iTunes App Store.
iPad eReader – Facts

• Each CCOID user may register up to 5 devices that can run a Cisco eReader app such as the Cisco eReader for iPad (or for Windows or for Android).

• Attempts to register more devices will result in a notice to de-register some of the devices.

• When a device is de-registered, all content downloaded to that device will be deleted, and any annotations that were added to the content but not synced with the server will be lost.

• Annotations made on your local device are saved to the device. Local annotations are not available on other devices until you sync them with the server.
iPad eReader – Facts

• **Logout**: Currently there is no logout capability. Your user session will remain active even after exiting the eReader.

• **Exit**: Exiting the eReader without logging out will not end your user session. The next time you start Cisco eReader, you will **not** need to log back in, i.e., you will not need an internet connection to read your dbooks.
iPad eReader – Startup

Starting Cisco eReader for iPad for the first time

- You will need an internet connection.
- Log in using your CCOID.
iPad eReader – Your Library

• Your Library will show the same list of redeemed dbooks as in your ‘My Content’ on Cisco Learning Network Space.
iPad Reader – dBook Download

• Download the redeemed dbooks that you want to be available offline by tapping the download icon in the dbook image (leftmost image).

• The status bar will display the download progress. You can pause or stop the download, if needed (middle image).

• Tap the dbook when it is ready to read (rightmost image).
iPad eReader - Opening a dBook

- Tap on a downloaded dbook to open it.
- Tap the Content pane to display the top & bottom toolbars.
iPad eReader – Navigation

- **Navigation Scroll Bar**: The navigation scroll bar appears at the bottom when you tap anywhere in the Content Pane, except at the left or right edge or on a link. Use the scroll bar to quickly navigate to specific pages.

- **Previous Page**: To go to the previous page, tap anywhere along the left edge, or swipe from left to right.

- **Next Page**: To go to the next page, tap anywhere along the right edge, or swipe from right to left.
iPad eReader – Top Toolbar

Top Toolbar: Tap anywhere in the content pane (except at the left or right edge or on a link) to display the top toolbar.

Functions and Options Available

- **Library:** Tap to display your Library.

- **Annotations Toolbar:** Tap to change the top toolbar to the Table of Contents and Annotations toolbar.

- **Sync:** Tap to synchronize your annotations with the server. Otherwise your annotations are only saved on your local device.
iPad eReader – Top Toolbar

- **Search**: Use the Search box to search for text in the course content, highlight comments, highlighted passages, and page notes. You can tap **All** or **Contents** or **Notes** or **Highlights** or **Page Notes**, respectively, to specify which search results to view.
iPad eReader – Annotations Toolbar

• **Contents:** 📖 Tap to view the Table of Contents.

• **Bookmarks:** 📚 Tap to view previously saved bookmarks. Bookmark notes can only be added/edited in the Online eReader at this time.

• **Highlights:** ✔️ Tap to view your highlight comments/notes.

• **Page Notes:** 📊 Tap to view your page notes.

Use any of the above to navigate through the dbook.
Tap ◀️ to go back to your dbook content.
iPod eReader – Annotations

Annotations – Highlights

• **Highlight**: To highlight text in the content, press the text to be highlighted and to bring up the menu, then select **Highlight**.

• **Adding/Editing a Highlight Comment**: To add/edit a comment to highlighted text, tap the highlighted text to bring up the menu, then select **Note**.

• **Removing a Highlight**: To remove a highlight, tap the highlighted text to bring up the menu, then select **Remove Highlight**.
iPad eReader – Annotations

Annotations – Bookmarks and Page Notes

• **Bookmarks:** Tap this toggle to set or remove a bookmark.

• **Page Notes:** Tap to add, edit or view your page note. To bring up your keyboard, tap on the page note itself. To save your page note, tap again. (For Cisco eReader for Android, tap **Save** at the top of your page note.)
iPad eReader – Library Toolbar

• **Icon/List View:** [Icon] [List] Tap to toggle between Icon View and List View.

• **Remove a dBook:** Press the dbook icon to bring up the X icon at the top left corner of the dbook icon, then tap the X.

• **Sync:** [Refresh] Tap to synchronize your list of dbooks with the server and to see any newly redeemed books.
iPad eReader – Library Toolbar

- **Settings**: Tap the gears icon to bring up the settings menu.

Settings Menu functions:

- **About**: Tap to see the version information, Privacy Policy and Legal notice.
iPad eReader – Library Toolbar

Settings Menu functions:

- **Manage Devices**: Tap to display your list of registered devices. Your device is registered when you log in and start Cisco eReader for iPad, Windows or Android the first time on that device. Tap a device name to deregister that device.

- **Deregister**: Tap to deregister your iPad device.

- **Important** – Deregistering a device will delete all dbooks that you downloaded to that device, and any unsynced annotations will be lost.
iPad eReader – App Settings

• Tap the **Settings** app on your iPad.

• Tap **Cisco eReader** in the left pane.

• The right pane will display the build details and allow you to set a setting.

  ![Cisco eReader Settings](image)

  **Enable Page Preview**: Toggle enable/disable page preview. Page preview allows you to see part of the next page when swiping up on a page.
Cisco Learning Network Space

Cisco eReader for Android
Cisco eReader for Android – Download

System Requirements

- Please see Cisco Learning Network Space - System Requirements - 30353.

Download Cisco eReader for Android

- The app is available for download from Google Play.
Android eReader – Facts

• Each CCOID user may register up to 5 devices that can run a Cisco eReader app such as the Cisco eReader for Android (or for Windows or for iPad).

• Attempts to register more devices will result in a notice to de-register some of the devices.

• When a device is de-registered, all content downloaded to that device will be deleted, and any annotations that were added to the content but not synced with the server will be lost.

• Annotations made on your local device are saved to the device. Local annotations are not available on other devices until you sync them with the server.
Android eReader – Facts

• **Logout**: Currently there is no logout capability. Your user session will remain active even after exiting the eReader.

• **Exit**: Exiting the eReader without logging out will not end your user session. The next time you start Cisco eReader, you will **not** need to log back in, i.e., you will not need an internet connection to read your dbooks.
Android eReader – Startup

Starting Cisco eReader for Android for the first time

• You will need an internet connection.
• Log in using your CCOID.
Android eReader – Your Library

• Your Library will show the same list of redeemed dbooks as in your ‘My Content’ on Cisco Learning Network Space.
Android eReader – Usage

• Cisco eReader for Android looks and works almost exactly the same way as Cisco eReader for iPad.

• Please refer to the section on Cisco eReader for iPad for more information.
Cisco Learning Network Space

Cisco eReader for Windows
Cisco eReader for Windows – Download

System Requirements

• Please see Cisco Learning Network Space - System Requirements - 30353.

Download Cisco eReader for Windows

• Log in to Cisco Learning Network Space using your CCOID.

• From the landing page, click Download Application, then click Get the Application.
  (See slide: Windows eReader – Download 1.)

Or:

• From the landing page, click My Content, then click Download Application in the purple box on the right. (See slide: Windows eReader – Download 2.)
Windows eReader – Download 1

Get the Application

Download our eReader application for seamless sync and back up:

- Course Progress
- Notes
- Bookmarks
- Highlights

Windows system requirements: Windows 7 or 8+
The Cisco eReader iPad app is available from the iTunes AppStore.
iPad system requirements: iPad 3, iPad 4, iPad Mini using iOS 6.1.3 and above.
The Cisco eReader Android app is available from the Google Play Store.
Android system requirements: Nexus 7 or 10 using Android 4.2 and above (1.2GHz Quad Core processor, 2GB RAM)
Windows eReader – Download 2
Windows eReader – Facts

• Each CCOID user may register up to 5 devices that can run a Cisco eReader app such as the Cisco eReader for Windows (or for iPad or for Android).

• Attempts to register more devices will result in a notice to de-register some of the devices.

• When a device is de-registered, all content downloaded to that device will be deleted, and any annotations that were added to the content but not synced with the server will be lost.

• Annotations made on your local device are saved to the device. Local annotations are not available on other devices until you sync them with the server.
